

Choice Board – Product

Math Concepts – Volume & Surface Area

Choose volume or Surface Area:

Choose one item from each column for your final project:

Solve three or more of the five challenge problems	Define the unit's vocabulary words with sketches or drawings	Create a math rap or rhyme that will help someone remember a concept from this unit
Create three word problems from information learned in this unit	Student Choice Activity (with teacher approval)	Write clear directions for performing the math computation skills from this unit, use powerpoint, video or illustrated document
Complete the review problems in the text book	Identify four ways the concepts in this unit are used in the real world	Develop a game using skills learned in this unit
