

Walk a Mile In My Footsteps

What was a day like in the life of your favorite author or scientist or someone else? Choose an important person and create two footprints.

One footprint should have pictures or symbols (but no words) that represent significant aspects of that life.

The other footprint should have words or phrases that describe the issues and events that define the impact of that person on the world. How would you feel and what would you do if you were in his/her shoes?

You may use the research materials you found to create your

footprints.
